<u>INTRO/OUTRO</u> |: Db | Ab | Bbm | Gb :|

<u>VERSE 1</u>

```
Db            Ab
Deep calls to deep, and these secrets I will
Bbm      Gb                   (Db)
keep as I run this shallow escapade, and

Db                Ab
The silence is so loud and all it screams
Bbm   Gb                                (Db)
out is this isn't right you've lost the fight.

Db                       Ab
When all the saints stop watching and all the sinners
Bbm        Gb                (Db)
mocking my every anticipated move.

Db                      Ab
And now I've fallen on my face like every time
Bbm         Gb
before, but still You love me
```

<u>CHORUS</u>

```
Fm            Gb    Db      Fm/C     Bbm      Ab
Al---le--lu---ia.      Holy is the   Lo-------rd, and

Fm            Gb    Db      Fm/C     Bbm      Ab    Gb     Gbm
Al---le--lu---ia.      Holy is the   Lo-------rd
```

<u>VERSE 2</u>

```
Db                 Ab
Judas betrayed you once, well I've betrayed You a
Bbm            Gb                            (Db)
thousand times over and over and over and over again
```

```
Db                          Ab
Well I've found that I'm no martyr and every time I have to
Bbm                    Gb                                (Db)
try that much harder to pick myself up, and dust myself off, and

Db          Ab
How many times will I wipe the tears from my
Bbm          Gb                         (Db)
eyes just to run back to everything I despise?

Db                  Ab
I keep wrestling with this shame, but I'm the
Bbm                    Gb
only one to blame, but still You Love me.
